

The diagram illustrates a game tree for a 6-player game. The root node is labeled "ROOT -1 -4 2 5 -6 -3". The tree branches out into several levels, with nodes labeled with player indices and game states. The diagram is color-coded: blue for nodes where a player has a winning strategy, and red for nodes where a player has a drawing strategy. The tree shows a sequence of moves and counter-moves, leading to terminal states. The final outcome is a win for player 1, indicated by the blue color of the root node and the final state labels.
