

Diagram illustrating a game tree structure, likely representing a game state space. The tree is rooted at the top and branches downwards. The root node is labeled "ROOT 3 -5 1 6 3 2 WIN -6 -5 -4 2 6 -5 -5 -4 3 2 -1". The tree branches into several levels, with nodes labeled with sequences of numbers and game states. The final level shows 12 terminal nodes, each with a sequence of numbers and a game state. The diagram is a detailed representation of a game tree, showing the progression of the game from the root to the terminal states.
