

Diagram illustrating a game tree structure, likely representing a sequence of moves in a game. The root node is labeled "ROOT 6 1 -3 2 -4 -5". The tree branches out into several levels of nodes, each representing a state of the game. Edges are labeled with blue text indicating the player whose turn it is to move and the action taken, such as "1,-2", "2,-3", "3,-4", etc. The tree ends in terminal nodes representing the final payoffs for the six players. The diagram is a visual representation of the game's structure and the sequence of moves.
