

Diagram illustrating the structure of the 4×4 grid of 3×3 subgrids, showing the arrangement of lines and the resulting 3×3 subgrids. The diagram is organized into four main sections, each representing a different 3×3 subgrid configuration.

The top section shows the 3×3 subgrid configuration for the top-left 2×2 subgrid. It consists of a 3×3 grid of lines, with the top-left 2×2 subgrid highlighted in blue. The top-left 2×2 subgrid is labeled "47DUP -4 -3 -2 1 -6 -5".

The middle section shows the 3×3 subgrid configuration for the top-right 2×2 subgrid. It consists of a 3×3 grid of lines, with the top-right 2×2 subgrid highlighted in blue. The top-right 2×2 subgrid is labeled "48DUP -4 -3 -2 1 -6 -5".

The bottom-left section shows the 3×3 subgrid configuration for the bottom-left 2×2 subgrid. It consists of a 3×3 grid of lines, with the bottom-left 2×2 subgrid highlighted in blue. The bottom-left 2×2 subgrid is labeled "49DUP -4 -3 -2 1 -6 -5".

The bottom-right section shows the 3×3 subgrid configuration for the bottom-right 2×2 subgrid. It consists of a 3×3 grid of lines, with the bottom-right 2×2 subgrid highlighted in blue. The bottom-right 2×2 subgrid is labeled "50DUP -4 -3 -2 1 -6 -5".
