

Diagram illustrating a complex tree structure representing a sequence of operations (likely a sequence of moves in a game or a sequence of transformations). The root node is labeled "ROOT -5 -1 -3 4 6 -2". The tree branches out into multiple levels, with nodes labeled with sequences of numbers and operations (e.g., "4DRAW -5 -4 -6 -1 -3 -2", "17DRAW -5 -4 -3 1 19", "34DRAW -4 -3 -67"). The diagram shows a hierarchical structure with many branches, indicating a large number of possible paths or states. The nodes are connected by lines, and the labels are color-coded (blue and black text).
