

The diagram consists of several parts:

- Top Left:** A large triangle formed by three lines meeting at a central point. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Top Right:** A set of four lines radiating from a common point. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Middle Left:** A set of three lines forming a fan shape. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Middle Right:** A set of four lines forming a fan shape. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Bottom Left:** A set of three lines forming a fan shape. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Bottom Middle:** A set of four lines forming a fan shape. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
- Bottom Right:** A set of five lines forming a fan shape. The top vertex is labeled σ . Below it are labels τ , ρ , and λ .
