

Diagram illustrating the structure of the  $3 \times 4$  grid of  $2 \times 2$  subgrids, showing the arrangement of lines and the resulting  $2 \times 2$  subgrids. The diagram is organized into four rows and four columns, with each subgrid labeled by its coordinates (row, column).

The top row shows the main structure, with the top-left subgrid labeled  $1 \times 1$  and the top-right subgrid labeled  $2 \times 2$ . The subsequent rows show the detailed structure of the subgrids, with labels indicating the row and column indices.
